Expand-A-Pleat Expandable Furnace Filter

- No assembly required
- Low pressure drop
- Electrostatically charged
- Removes pet dander
- Material - MERV 8
- Made in the USA
- Captures airborne allergens & particulates

Adjustable frame easily slides to fit central air system without using scissors or other tools

Each filter is clearly printed to make it easy to find desired size

Expanded metal supports each pleat and ensures the filter maintains its shape even in high velocity central air systems

Locking tab slides into place to securely hold the filter at selected size.

Order No. WEB-1

Universal Adjustable Furnace Filter

- Two-phase electrostatic filter system traps dust, mold spores, animal dander and pollen
- Traps over 90% of particles ranging from 0.245 to 80 microns
- Laboratory tested and guaranteed
- Fully adjustable to fit standard sizes from 14" x 20" to 20" x 25", 1" thick

Electrostatic High Efficiency Washable Filter

5 Year Warranty

WASHABLE & REUSABLE!

AIR CONDITIONER ACCESSORIES

SUPER SEAL

For professional use only: Always wear safety glasses and protective gloves. Use in compliance with the Montreal Protocol and Regional or Federal laws for the handling of refrigerant.

Seals leaks from the inside out!

When you can't find the leak, Super Seal repairs leaks quickly, easily and permanently. Service techs save time & money on the first call without repeat calls.

- Compatible with all oils and refrigerants.
- Effective in sealing multiple leaks
- Hose and valve included with each product.
- Ideal for preventative maintenance too
- Vacuum packed can
- No flammable Hydro Carbons

Super Seal reacts with the present atmospheric moisture. As refrigerant starts to leak out, it lowers the ambient air down to the dew point. When this happens, little droplets of moisture appear around the leak area. When the sealant meets the moisture, it forms a low tensile crystalline structure that prevents further leakage. Super Seal is designed to seal leaks 300 microns or smaller.

Order No. 944KIT 1 unit
Order No. 944DIS 8 units
Order No. 944CS 12 units

Super Seal HVACR

- Repairs leaks in refrigerant units utilizing more than 4 lbs. of refrigerant
- Good for most residential systems
- 1-1/2 ton up to 5 ton (min. of 30 oz. of oil required)
- Will not clog the valve core when injected into the system
- Will not harm the compressor, windings or other components
- Won't interfere with compressor functions, valves, form wax or impede the lubrication ability of the system
- Compatible with all refrigerants & oils including 410a

Order No. 947KIT 1 unit
Order No. 947DIS 8 units
Order No. 947CS 12 units

Super Seal ACR

- Repairs leaks in refrigerant units utilizing less than 4 lbs. of refrigerant
- Good for smaller systems
- 230 BTUH up to 18000 BTUH (1-1/2 ton) (min. of 10 oz. of oil required)
- Will not clog the valve core when injected into the system
- Will not harm the compressor, windings or other components
- Won't interfere with compressor functions, valves, form wax or impede the lubrication ability of the system
- Compatible with all refrigerants & oils including 410a

Order No. 946CS 12 units

Super Seal Automotive

- Easily installed in minutes
- Professional strength formulation
- Permanently seals leaks in evaporators & condensers
- Effective in sealing multiple leaks
- Continues to circulate in the A/C system to prevent future leaks
- Contains no red dye
- Saves time, money & the environment from harmful emissions

Order No. 973KIT

ACR system application guidelines

- 230 BTUH / 0.067 KW to 18,000 BTUH / 5.3 KW: one can of Dry R
- 1.5 ton / 5.3 KW up to 5 ton / 17.6 KW: one can of Dry R (for micro leaks, add one can of Super Seal HVAC)

Dry R

- Eliminates moisture by pulling apart the H²O molecule and creates a stable environment
- Increases drier efficiency by turning yellow when moisture is present in the line, and back to green when the line is dry in 24 hours
- Prevents the formation of acid, as acid cannot form without moisture
- Can be used during or after maintenance is performed
- Excellent oil conditioner
- Can use with all Cliplight sealants (including sealants)
- Increases lifespan of AC/R units
